

Upskilling social care professionals in local authorities to prevent gender - based violence

Erasmus+

2022-1-EL01-KA210-VET-000082477

What is UpCare?

UpCare is a project co-funded by the European Union and the State Scholarships Foundation and it is a partnership between Ethos HUB (coordinator), Municipality of Acharnes, Fundación MUSOL and Horizon: Center of Research, Technology & Innovation.

This project aims to test and validate a training model for upskilling professionals working in the social care sector in order to provide counseling to families with children in primary schools and prevent children's behaviours which may result to gender-based violence in their adulthood.

The trainings will be conducted in both Greece and Spain and more specifically in the Municipality of Acharnes and in the region of Valencia respectively.

Main activities in Greece and Spain
